

Address Procedures

TREASURER

CONFIDENCE LEVEL

Determine confidence level of the new address information according to the source of the data. Insert data into the record via the procedures set up for that confidence level.

1. Confidence Levels:

a. High Confidence:

- i. Direct email request from the client.
- ii. Direct postal mail request from the client.
- iii. Phone call from the client.
- iv. Text message from the client.
- v. Note from client included with payment.
- vi. POA initiated contact with client via phone, email, or text msg.

b. Medium Confidence:

- i. Escrow papers received during property transfers.
- ii. Address listed with Square payment processing.
- iii. USPS address service notices.
- iv. USPS mail returned notices containing new address.
- v. Address listed on latest county tax payment.
- vi. County parcel records.
- vii. Word of mouth from a source other than the client.

c. Low Confidence:

- i. Address on check.
- ii. Phone book.
- iii. Internet search.
- iv. Other.

2. Procedures: Using the AirGapped Accounting Computer access QuickBooks link on desktop. DO NOT CONNECT THIS MACHINE TO THE INTERNET
 - a. High Confidence Level Address:
 - i. Select Owner's account to edit on active customer level (see Customer Information header)
 - ii. Refer to Changing an Address section below
 - iii. Create time stamped note only in customer record.
 - iv. Change address in customer record.
 - v. Change address in each parcel record.
 - b. Medium Confidence:
 - i. Use escrow data to set up new customer in database. This address may no longer be good if customer is moving. Sometimes realtor or escrow agent will have an updated address.
 - ii. Create time stamped note only in customer record.
 - iii. Change address in customer record.
 - iv. Change address in each parcel record.
 - c. Low Confidence:
 - i. Create timestamped note only in customer record.
 - ii. Do not change address in customer or parcel records.
 - iii. If mail is returned, try new address to verify validity, edit note to indicate attempt to use new address.
 - d. If all efforts repeatedly fail – mark address in Customer Information with “INVALID ADDRESS”.
3. Changing an Address to Customer Information
 - a. Select Owner's account to edit on active customer level (see Customer Information header)
 - i. Enter Notes tab
 - ii. Manage Notes: Add New.
 - iii. Click on Date/Time Stamp, this inserts time stamp into note
 - iv. Type your initials after the time stamp

- v. Type source and mechanism new address data was received from
REFER to CONFIDENCE LEVEL eg: text message or mail from
owner
- vi. Type "Old address"
- vii. Type "New address" and enter new address
- viii. Close NOTE by pressing OK (must exit note to locate old address)
- ix. Locate Old Address:
 - 1. Click EDIT next to Customer Information
 - 2. Select address and copy, then press CANCEL
 - 3. Double click previously created Note
 - 4. Paste old address beneath Old Address section
 - 5. Select and COPY previously typed New Address in the
Note
 - 6. Press OK to commit changes, this creates an audit trail for
the address change.
- x. Enter New Address to Customer Record
 - 1. Click EDIT next to Customer Information
 - 2. Select address and PASTE
 - 3. Press OK to commit changes
- 4. Changing an Address to Parcel Record
 - a. Select first Parcel Record to edit on Job Information level (see Job
Information header to confirm correct location)
 - i. Click EDIT next to Job Information
 - ii. Select address and PASTE (The previously copied address should
still be in your clipboard)
 - iii. Press OK to commit changes
 - iv. Repeat same procedure for each parcel owned by Customer
 - v. Generally, notes are not added to Parcel Records UNLESS it is
something specific to that one parcel.

- vi. Contact information is NOT entered in Parcel Records except for the postal address. Prevents duplicate information when parcels are sold.
